

VPBANK TECHNOLOGY HACKATHON

Chinh phục công nghệ, Kiến tạo tương lai cùng VPBank

Phase 2: Online Proposal submission

1. Team Names and Profiles

What are your team names?
Which role do member play in the Challenge?
What is your challenge statement of choice?

2. Solutions introduction

What is your solution and how does it work?
Discuss main features clearly.

4. Deep dive into solution

Detailed write up of solution, e.g. level 2 data flow diagram. Include any supporting features if necessary.

3. Impact of solution

How does your solution benefit the society or the target audience? Why is your solution a good solution?

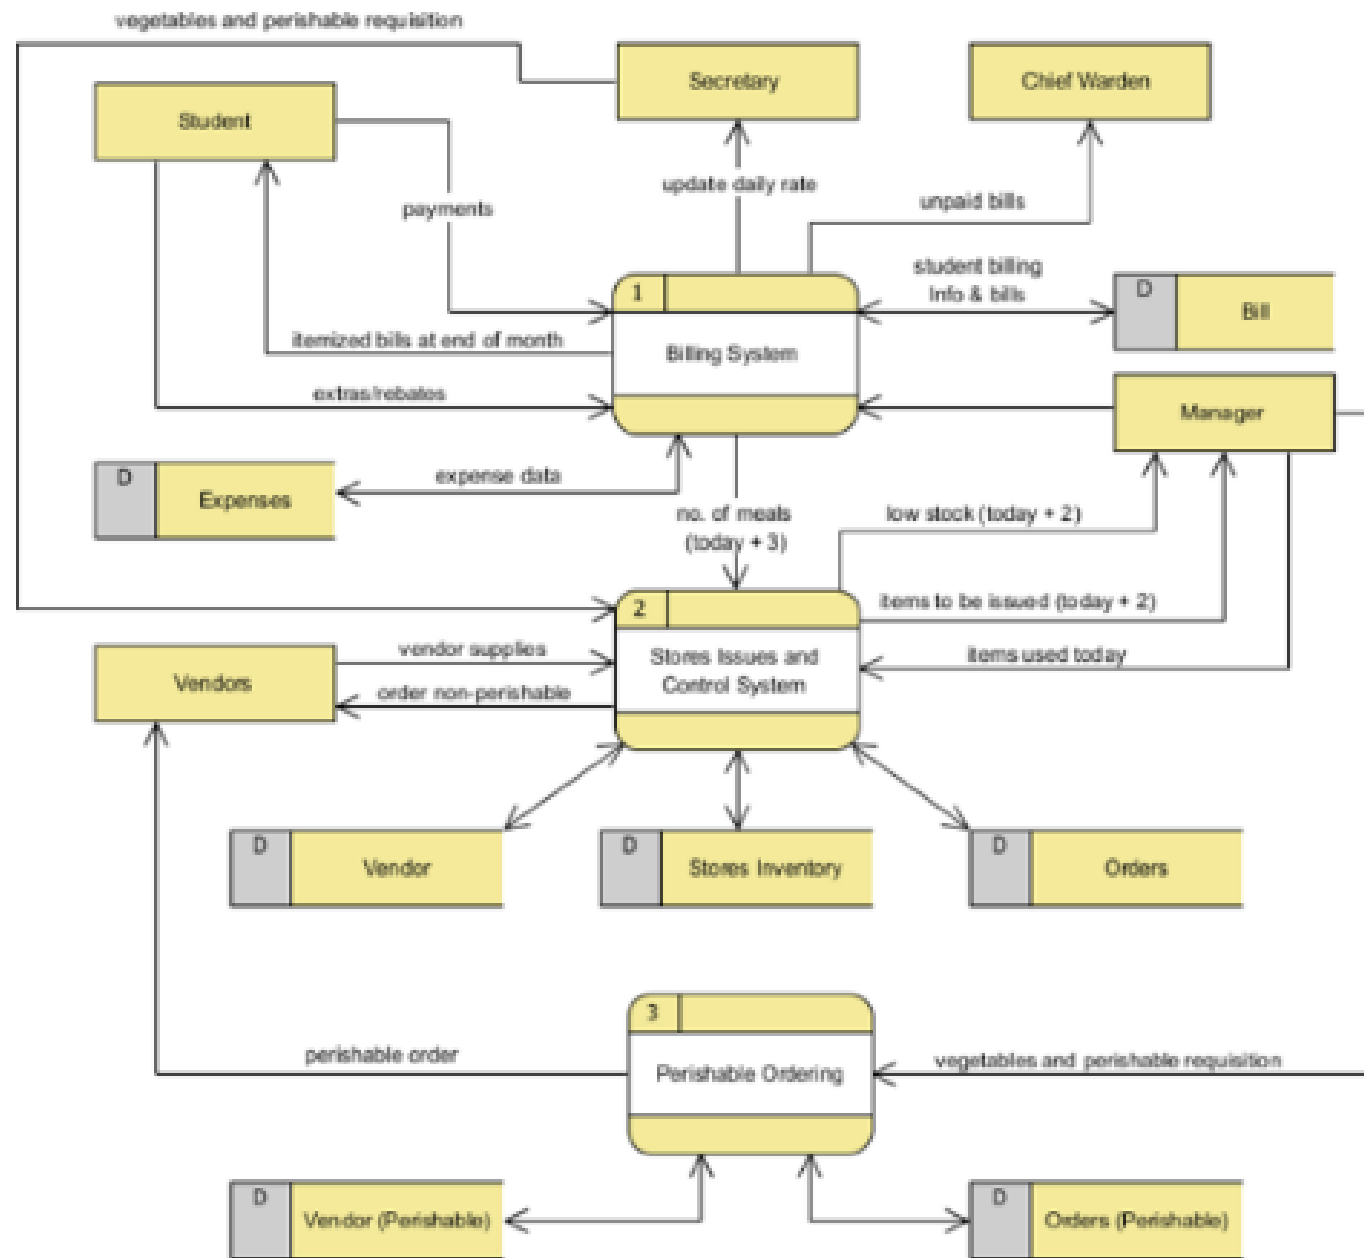

How is it better than existing solutions in the market or competitors? What is your solution's competitive advantage or unique selling point?

5. Architecture of solution

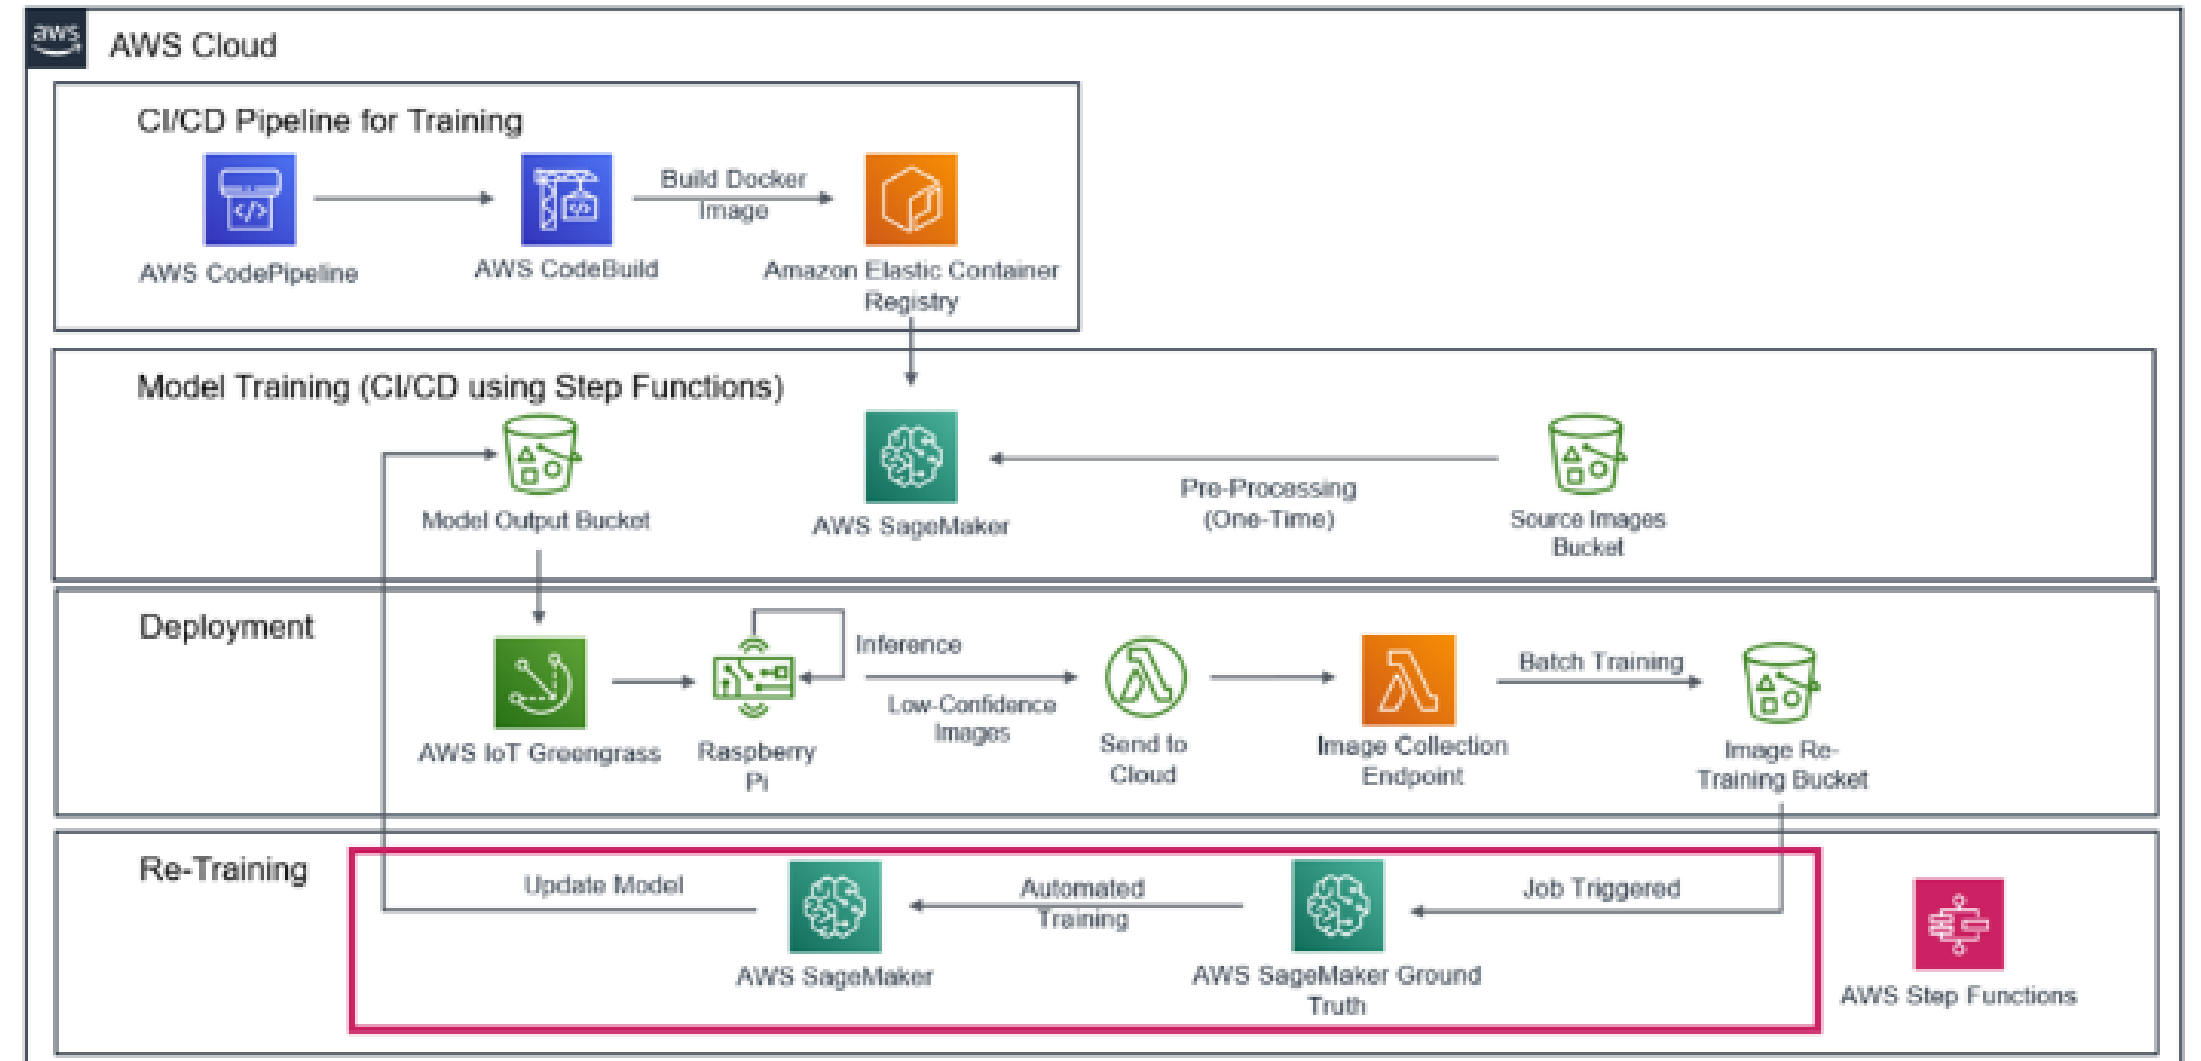

How does your solution make use of AWS infrastructure? Do not just give a description of the services you are using, but explain how you are using the services in your solution.

How are you integrating and combining the different AWS services to make your solution seamless? Include architecture diagrams.
